## Technical Product Notes

NAME OF PRODUCT:

NV Plus 10.2

DATE CREATED:	TECH NOTE NUMBER:	PREPARED BY:
June 23, 2025 Honegger	TN-NVPlus-10.2-001	Patrick

This Technical note is for the installation of the auxiliary dust cover for the ON/OFF button for the NV Plus-10.2 Battery

---

### SCOPE

---

The On/Off button may become stuck in the ON position if excessive airborne particulates are present, or if drilling residue from equipment installed above the NV Plus 10.2 is not properly removed using a vacuum. To mitigate this issue, additional dust protection can be added around the NV Plus 10.2 On/Off button. These protective dust covers are available for purchase on Amazon and can be installed in the field.

### PRODUCT

DaierTek **22mm** Push Button Cover Child Proof Transparent Safety Power Button Switch Cover Guard Protector for Computer PC Desktop -3Pack

This product comes with double-sided tape for easy installation. No tools are necessary for installation.
